X1 1. [] LIAISON Received a call from Cliff Fowler, GAO, who requested a copy of the Director's 1 September letter to Mr. Elmer Staats, Comptroller General of the United States, regarding GAO's draft report on [] An hour later, Mr. Fowler stopped by the office to pick up the copy. 25X

X1 2. [] FOIA/LIAISON I called the office of Representative Robert Livingston (R., La.) and spoke with Ms. Alice Mayer, Executive Secretary, concerning an inquiry CIA received from [] who had requested that any information or correspondence directed to him also be sent to the Congressman. Ms. Mayer indicated that she was aware of [] request and did wish to receive a copy of the Agency's response to [] This is being sent out today. 25X

X1 3. [] LIAISON On Thursday, 31 August, Mr. Bob Old, Minority Counsel, Senate Armed Services Committee, called to determine whether CIA had in its old files any newspaper articles for 1963 relating to the Cuban missile crisis. He was aware that the actual time of the missile crisis was October 1962; however, he felt the articles he was looking for, at the request of Senator John Tower (R., Texas), were published in 1963. After several calls between OLC and Mr. Old, wherein he was given the little information that was surfaced, he gave me one more specific date to check out. It seems the Senator is interested in comments made against him by Fidel Castro during 1963 but concerning the missile crisis. I called today to pass the results of the latest search to Mr. Old, but he is away until Thursday and I left word with his office. 25X

X1 4. [] THIRD AGENCY Took a call from John Fawcett, of the National Archives, who said that he was in receipt of a fairly large volume of CIA-originated material from the John F. Kennedy and Lyndon B. Johnson Libraries. This material had been requested by the House International Relations Subcommittee on International Organizations. Fawcett said that he would arrange to have the material delivered to me so that it could be reviewed and sanitized prior to being made available to the Subcommittee. 25X
